

InterRegs. NET

InterRegs.NET is the premier online subscription service providing immediate access to up-to-date global vehicle safety and emission regulations. Designed for OEMs, Tier 1 and 2 suppliers and engineering service providers, it enables regulatory, homologation and certification teams to efficiently monitor and manage evolving international standards.

Simplifying Global Compliance

InterRegs.NET supports engineers and compliance professionals involved in vehicle design, R&D, homologation, certification and type approval. By offering a central, verified source of information, it saves significant time and cost compared to manual tracking, translation, and verification of regulations.

Trusted Regulatory Experts

Established in 1968, InterRegs is a trusted global provider of automotive regulatory information, accredited to ISO 9001:2015. Working with major OEMs and suppliers worldwide, we help ensure efficient and accurate compliance management.

Take Control of Automotive Compliance with InterRegs.NET

Stay Compliant. Save Time. Work with Confidence.

All the regulations - One Reliable Source

Access fully consolidated, up-to-date global automotive regulations - complete, accurate and ready when you need them.

Professional English Translations

Every regulation is expertly translated and published in full, with no editing or interpretation - giving you total confidence in every detail.

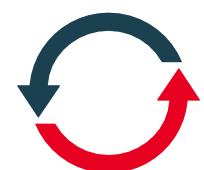

Consistent, Easy-to-Use Format

All documents are supplied as bookmarked PDFs for fast, intuitive navigation and effortless reference.

Frequent, Transparent Updates

Stay compliant with frequent updates - every amendment clearly highlighted and date-stamped so you know exactly what's changed.

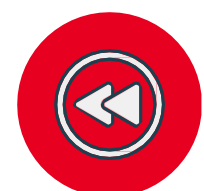

Instant Update Alerts

Get notified by email whenever your chosen regulations are updated - so you never miss a change that matters.

Access to Previous Versions

Compare current and earlier editions to understand how requirements have evolved and demonstrate due diligence.

Simple, User-Friendly Interface

Designed for speed and clarity, with customisable document views and preferences tailored to your workflow.

Smart Filtering Options

Find what you need fast - filter by country, subject category or vehicle type to focus only on relevant regulations.

Filter by Subject Category

Quickly locate all regulations related to specific areas such as braking, lighting or occupant protection.

Filter by Vehicle Type

Identify the exact regulations affecting cars, trucks, motorcycles, trailers, or other vehicle classes with ease.

Intelligent Search Engine

Powered by InterRegs' specialist automotive Thesaurus and WordNet, it delivers precise, relevant results across all documents and regions.

Bookmarks for Quick Access

Save your most-used regulations and return to them instantly - perfect for daily reference.

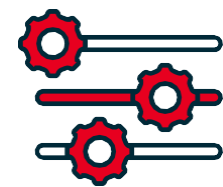

Offline Access with ZIP Packages

Download and group documents for use anytime, anywhere - even without internet access.

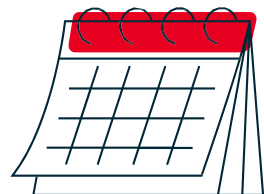

Flexible Subscription Options

Choose a plan that fits your needs - 6- or 12-month subscriptions, single-user or corporate access, by country or subject area.

Legislation Implementation Dates Database

Plan ahead with instant access to all upcoming implementation dates for Australia, Canada, EC, ECE and FMVSS regulations.

Monthly Update Bulletin

Receive a free summary of the latest global regulatory changes plus expert insights into key topics each month.

Dedicated IT Support

Access a comprehensive online knowledgebase and responsive technical support whenever you need assistance.

ISO 9001:2015

Certified to ISO 9001:2015, ensuring consistent quality, continuous improvement and services designed around your needs and feedback.
